Labpette™ Discovery Pipettor

- Superior accuracy and precision
- Thumbwheel or push-button volume selection
- Reduced plunger force
- Fully autoclavable
- Supplied with calibration key
- Ergonomically positioned tip ejector

Part No.	Description	Price
41051000	Single Channel, 0.2µl - 2.0µl	\$ 230.00
41051001	Single Channel, 0.5µl - 10.0µl	\$ 230.00
41051002	Single Channel, 2µl - 20µl	\$ 215.00
41051003	Single Channel, 10µl - 100µl	\$ 215.00
41051004	Single Channel, 20µl - 200µl	\$ 215.00
41051005	Single Channel, 100µl - 1000µl	\$ 215.00
41051006	Single Channel, 1000µl - 5000µl	\$ 235.00
41051007	Single Channel, 1000µl - 10000µl	\$ 235.00
41051008	Eight Channel, 1µl - 10µl	\$ 265.00
41051009	Eight Channel, 5µl - 50µl	\$ 265.00
41051010	Eight Channel, 20µl - 200µl	\$ 265.00
41051011	Eight Channel, 50µl - 300µl	\$ 265.00
41051012	Twelve Channel, 1µl - 10µl	\$ 315.00
41051013	Twelve Channel, 5µl - 50µl	\$ 315.00
41051014	Twelve Channel, 20µl - 200µl	\$ 315.00
41051015	Twelve Channel, 50µl - 300µl	\$ 315.00

These precision pipettors are designed for exceptional comfort and accuracy. Light-weight and well balanced, they fit comfortably in either the right or the left hand with a large digital display visible to the user. Chemically resistant maintenance-free seals and finely polished pistons provide unsurpassed accuracy sample after sample.

FastPette™ Pipettor Controller

- Works with pipettes from 1 ml to 100 ml
- High aspiration speed - 25 ml in 4 seconds
- Cordless work for up to 8 continuous hours
- Ergonomically designed
- Comfortable control, precision dispensing

Part #: 41051016
Price: \$275.00

The aspiration speed can be set to high or low to adjust the volume of the pipettors and the viscosity of the liquid. The suction can also be adjusted by the amount of pressure applied to the trigger button. Dispensing can be carried out by gravity or supported by the pump, which empties the pipettor with a blow out step.

The FastPette™ is protected from the entrance of liquids by both a PTFE filter and a safety valve. Both the filter and pipettor holder are easily exchangeable and autoclaved to protect samples from cross-contamination.

BioPette E™ Electronic Pipettor

- Excellent accuracy and precision
- Simple, precise volume setting
- Fully motorized piston drive
- Comfortable, ergonomic, light-weight design
- Virtually eliminates pipetting force
- Self-calibrating
- Autoclavable lower portion

Part No.	Description	Price
41051017	Single Channel, 0.5µl - 10µl	\$ 295.00
41051018	Single Channel, 2µl - 20µl	\$ 295.00
41051019	Single Channel, 10µl - 200µl	\$ 295.00
41051020	Single Channel, 100µl - 1000µl	\$ 295.00
41051021	Eight Channel, 0.5µl - 10µl	\$ 599.00
41051022	Eight Channel, 2µl - 20µl	\$ 599.00
41051023	Eight Channel, 10µl - 200µl	\$ 599.00
41051024	Eight Channel, 100µl - 1200µl	\$ 675.00
41051025	Twelve Channel, 0.5µl - 10µl	\$ 699.00
41051026	Twelve Channel, 2µl - 20µl	\$ 699.00
41051027	Twelve Channel, 10µl - 200µl	\$ 699.00
41051028	Twelve Channel, 100µl - 1200µl	\$ 775.00

** Rechargeable Li-ion battery, 120V charging adaptor and shelf clip included.*

The BioPette E™ Electronic Pipettor is fully motorized to eliminate the hand strain associated with repetitive operation. A high precision stepping motor controls piston action resulting in exceptional accuracy and precision as well as much lower pipetting force. Accuracy and Precision is further enhanced by a state-of-the-art microprocessor which controls the action of the stepping motor. An optical coupler monitors the plunger position to ensure exact movement each and every time.

The BioPette E™ is unexpectedly lightweight and well balanced. The plunger button is easily accessed by the index finger, while the other fingers tuck in comfortably under the finger rest. A small, natural movement of the index finger is all that is required to activate the plunger, virtually eliminating hand stress. The tip ejector slides easily with minimal effort from the thumb. Angled toward the user, the large LCD is clear and easy to read, with all active functions and battery status displayed.

Six operational modes expand the capabilities of the BioPette E™ beyond just a mere pipettor. The large screen and simple interface allow users to easily select the appropriate operating parameters. The program memory holds up to nine different sets of operating parameters for future recall. In order to ensure proper operation of the BioPette E™, the software includes a self-diagnosis program that constantly monitors the accuracy of pipetting volume, battery status, and the auto-calibration function.

Chrysalis Pipettor

- Easy locking volume adjustment
- Clear digital volume display
- Fully autoclavable
- Built-in tip ejector
- Universal tip compatibility
- Economical & Ergonomic

Part No.	Description	Price
41051035	P10, 0.1µl - 10.0µl	\$ 119.00
41051036	P100, 10µl - 100µl	\$ 119.00
41051037	P200, 20µl - 200µl	\$ 119.00
41051038	P1000, 100µl - 1000µl	\$ 119.00

Pipettor Stand

- Carousel and Linear designs
- Stands for 1 or 6 pipettors
- Unique designs for various pipets
- Easy access and usability

Part No.	Description	Price
41051030	Carousel Pipettor Stand for 6 pipettors	\$ 97.50
41051031	Linear Pipettor Stand for 6 pipettors	\$ 79.00
41051032	Stand for 8 Channel Pipettor, holds 1	\$ 35.00
41051033	Stand for 12 Channel Pipettor, holds 1	\$ 35.00
41051034	Carousel Pipettor Stand for Labpette FX	\$ 99.00
